
FOR NOW THERE WILL BE NO REMOVAL OF THE LIMIT OF THE PENSION AND DISABILITY CONTRIBUTIONS

With reference to our alert No. 24/2018, we would like to inform you that on 14.11.2018 the Constitutional Tribunal decided that the law abolishing the upper limit of the contributions is inconsistent with art. 7 of the Constitution. The reason was the infringement of the legislative procedure. This means that the principle of limiting the annual basis for calculating the pension and disability contributions will continue to apply. The above limit is 30 times the forecasted average remuneration in the economy for a given year. In 2018 this limit is 133 290 PLN.
